

Chicopee River Watershed Council

Summer 09 projects

In an effort to keep the momentum from the 3RI going, ChicRWC has identified a number of projects that would be beneficial to develop over the summer. Please look these over and let the Council know where you can help and/or participate. These efforts are meant to advance our stewardship efforts.

1. Expand river segment surveys, add additional teams, plan surveys
 - a. Use surveys to develop action plans & resource awareness, get people out & on the rivers! (WE have one started! Who will be next?)
2. Develop educational outreach programs for schools and civic events.
 - a. These initial efforts will be basic and grow as we grow
 - b. I am meeting with a DCR contact soon to get ideas and will convene a ED team meeting asap.
 - c. Continue to develop DVD presentations of rivers in the basin
3. Renew publication of the “Kingfisher” newsletter.
 - a. Late fall/winter first issue?
 - b. Lay out 3-4 issue before we hit the presses
 - c. Need editorial team

Please contact me if you wish to help with any of these efforts. They can only happen with your help.

Thank you,

Keith Davies

Coordinator
